DEGREES AND OTHER FORMAL AWARDS CONFERRED BY NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION

1974-75 Through 1978-79

October, 1980

Degrees and Other Formal Awards Conferred
by Nebraska Institutions of Postsecondary Education
1974-75 through 1978-79

A Five Year Summary

Nebraska institutions of postsecondary education conferred approximately 4% fewer degrees and other formal awards in 1978-79 than in 1974-75, a reduction of 535 from 14,343 degrees and awards conferred in 1974-75. The only schools to award more degrees in 1978-79 than 1974-75 was the independent college and university sector, awarding 3.56% more degrees at the end of the five year period. Fewer degrees were awarded by all the public sectors where the percentage change for the University of Nebraska was -6.58%, Nebraska State Colleges -2.82%, and Technical Community Colleges -4.19%.

The number of Associate Degrees and Other Formal Awards conferred for programs of two years or less changed the least over the five-year period and showing a reduction of slightly over one-half of one-percent statewide. The University of Nebraska and State College did, however, award 94 (36.58%) and 55 (80.88%) more degrees at this level in 1978-79 than in 1974-75. The Technical Community Colleges conferred 128 fewer degrees for the two-year programs, a 4.19% reduction, and the independent schools the same number (253), when 1978-79 figures are compared with those reported in 1974-75.

Numerically, the biggest difference was at the baccalaureate degree level where the number of bachelor degrees conferred declined from 8,227 in 1974-75 to 7,392, a reduction of 835 degrees or 10.15%. While the number of baccalaureate degrees conferred by the University of Nebraska declined 14.92% (4,746 to 4,038), and the Nebraska State Colleges 11.17% (1,549 to 1,376), the independent colleges and universities show an increase of 2.38% (1,932 to 1,978).

The number of graduate degrees conferred rose continually throughout the five year period. There were 222 more masters degrees conferred in 1978-79 than in the 1974-75 reporting period, an increase of just less than 15%. The University of Nebraska awarded 146 more masters degrees (+12.52%), the state colleges 71 more (+37.97%) and 5 more (3.42%) masters degrees were conferred by the independent colleges and universities.

Both the University of Nebraska and independent colleges and universities increased the number of first-professional degrees (medicine, dentistry, law) awarded. An 8% increase (36) was reported by the University of Nebraska and almost 14% increase (46) was reported by the independent institutions for a statewide increase of approximately 10% (from 765 to 838) for all degrees conferred in these professional areas.

While the number of masters and first-professional degrees conferred increased from 1974-75, the number of doctorates (Ph.D. and Ed.D.) declined by 16 (from 216 to 200) or 7.41%. Essentially, the number of doctorates conferred remained stable throughout the reporting period being 216, 178, 218, 206, and 200 for each of the respective five years. Most of the doctorates were conferred by the University of Nebraska with Creighton University awarding only 1 to 3 a year.

PREFACE

The information contained in this report was reported by the Nebraska institutions of postsecondary education on the Higher Education General Information Survey (HEGIS). The HEGIS degree and other formal awards report is part of a series of reports institutions annually file with the National Center for Education Statistics of the U.S. Department of Health, Education, and Welfare. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions, the collection and return of completed reports for the National Center for Education Statistics (NCES).

The data were taken from the following HEGIS reports.

1978-79: "Degrees and Other Formal Awards Conferred Between July 1, 1978 and June 30, 1979."
(NCES Form 2300-2.1)

1977-78: "Degrees and Other Formal Awards Conferred Between July 1, 1977 and June 30, 1978."
(NCES Form 2300-2.1)

1976-77: "Degrees and Other Formal Awards Conferred Between July 1, 1976 and June 30, 1977."
(NCES Form 2300-2.1)

1975-76: "Degrees and Other Formal Awards Conferred Between July 1, 1975 and June 30, 1976."
(OE Form 2300-2.1)

1974-75: "Degrees and Other Formal Awards Conferred Between July 1, 1974 and June 30, 1975."
(OE Form 2300-2.1).

The raw data reported herein were sent to each Nebraska instituition of postsecondary education for verification. The data shown in this report reflects changes made by the institutions as a result of this verfication process.

It should be noted that while each collegiate postsecondary institution annually completes the Higher Education General Information Survey, in 1978, the Nebraska College of Business, a Private Vocational School, participated in the Survey on an experimental basis. This experiment was conducted to determine the problems encountered, appropriateness, and general capability of private vocational schools which offer associate level degree programs to provide the same information. This single year reporting by the Nebraska College of Business does not imply that other private vocational schools were requested to provide the information or that this reporting in any way represents the totality of the 67 private vocational schools in Nebraska.

The Commission wishes to acknowledge with appreciation the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

IV. Commission Reports 86

I. Introduction

The number of degrees and other formal awards shown in this report are aggregated individual program totals for the respective award levels. For example, the number of baccalaureate degrees reported in the major program area of Architecture and Environmental Design reflects the summation of the degrees conferred in six (6) possible baccalaureate degree programs for this program area: (1) Environmental Design, General, (2) Architecture, (3) Interior Design, (4) Landscape Architecture, (5) Urban Architecture, and (6) City, Community, and Regional Planning. The reviewer of these data is, therefore, cautioned to keep in mind that the program areas shown in this report are major program areas rather than individual programs of study, or majors.

The reports detailed in Section II, shown the number of degrees and formal awards conferred at the following award levels:

1. Degrees and Awards Based on Less than Four Years of Work Beyond High School

   There are three (3) parts to this section which are:

   a. Curriculums of at least one year but less than two years
   b. Other Formal Recognition (without Associate Degree) Curriculums of two or more years but less than four years
   c. Associate Degree Curriculums of two or more years, but less than four years

2. Bachelor Degrees Awarded

3. Master's Degrees Awarded

4. First Professional Degrees Awarded in Selected Fields

5. Degrees or Certificates Awarded that are intermediate between the Master's Degree and the Doctor's Degree

6. Doctor's Degrees Awarded

Each of these degree levels has a number of individual programs of study, or student majors, available for institutional reporting. However, as mentioned above, these degree levels are aggregated to the general program area in which these individual programs are classified. In addition, there are a number of different award or degree titles within each degree level. For example, there are Associate of Sciences (A.S.), Associate of Arts (A.A.) and Associate of Applied Science (A.A.S.) degrees reported together under the Associate Degree Level heading. This is especially true for the Bachelor's and Master's degree level sections.

The surveys from which these data were taken also included the number of awards that were conferred to men and to women and by ethnic categories. These data are not shown in this report.

The following tables show in summary the data reported in Section II of this report.

Explanation of Table Numbers 1 and 2

Table Numbers 1 and 2 show by level of degree or other formal award conferred, the number of degrees or awards each institutional sector conferred during the respective reporting period by major discipline groupings.

The degree levels are shown in more detail in the detailed reports in Section III of this report.

Degree Level	Section and Title of the Detailed Reports
1. Below Baccalaureate Degree Level Programs	Section II. Degrees and Awards Based on Less Than 4 years of Work Beyond High School
	A. Curriculums of at least 1 year but less than 2 years.
	B. Other Formal Recognition (without Associate Degree) curriculums of 2 or more years, but less than 4 years.
	C. Associate Degree Curriculums of 2 or more years, but less than 4 years.
2. Baccalaureate Degree Level Program	Section III. Bachelor Degrees Awarded
3. Master's Degree Level Program	Section IV. Master's Degrees Awarded
4. First Professional and Intermediate Programs	Sections V. and VI. First-Professional Degrees Awarded in selected fields and Degrees and Certificates Awarded that are Intermediate between the Master's Degree and the Doctor's Degree (Ph.D., Ed.D)
5. Doctoral Degree Level Programs	Section VII. Doctor's Degrees Awarded (Ph.D., Ed.D.)

The Major Discipline Groupings are as follows and were taken from the detailed reports in Section III and are defined in the following manner.

Major Discipline Category	Definition
General Arts and Science Programs	1. Below Baccalaureate Degree Level Program (Section II) "Arts and Science or General Programs, not organized as Occupational Curriculums." (Section II. A.1, II. B. 1, and II. C. 1) 2. Baccalaureate, Master's and Doctoral Degree Level Programs Sections III, IV, and VII). 49 - "Interdisciplinary Studies"
Physical Sciences	1. Below Baccalaureate Degree Level Programs "Science - or Engineering - related Technologies Organized Occupational Curriculums" (a) Section II. A.2.a, Section II. B.2.a, and Section II. C. 2.a.- "Data Processing Technologies (b) Section II A.2.c, Section II. B.2.c, and Section II.C.2c .- "Mechanical and Engineering Technologies" 2. Baccalaureate, Master's, and Doctoral Level Degree Programs (Sections III, IV, and VII). 7 - "Computer & Information Sciences" 9 - "Engineering 17 - "Mathematics" 19 - "Physical Sciences"
Life Sciences	1. Below Baccalaureate Degree Level Programs (Section II) "Science - or Engineering - related Technologies Organized Occupational Curriculums" (a) Sections II. A.2.d, II. B.2.d, and II. C.2.d - "Natural Science Technologies" 2. Baccalaureate, Master's, and Doctoral Level Degree Programs (Sections III, IV, and VII) 1 - "Agriculture and Natural Resources" 4 - "Biological Sciences"

Category	Definition
Humanities	1. Baccalaureate, Master's and Doctoral Level Degree Programs (Sections III, IV, and VII) 6 - "Communications" 10 - "Fine and Applied Arts" 11 - "Foreign Languages" 15 - "Letters"
Social Sciences	1. Below Baccalaureate Degree Level Programs (Section II) "Nonscience - & Nonengineering - related Organized Occupational Curriculums (a) Sections II. A.3.b, II.B.3.b, and II. C.3.b - "Public Service Related Technologies" 2. Baccalaureate, Master's and Doctoral Level Degree Programs (Section III, IV, and VII). 3 - "Area Studies" 20 - "Psychology" 21 - "Public Affairs and Services" 22 - "Social Sciences"
Education	1. Baccalaureate, Master's and Doctoral Level Degree Programs (Sections III, IV, and VII) 8 - "Education" 2. First-Professional and Intermediate Level Degree Programs (Sections VI. 2 and VI. 3). VI. 2. - "Certificate in Educational Administration and Supervision" VI. 3. - "Specialist in Education and Supervision"

Category	Definition
Business	1. Below Baccalaureate Degree Level Programs (Section II) "Nonscience-& Nonengineering-related Organized Occupational Curriculums (a) Sections II.A.3.a, II.B.3.a, and II.C.3.a - "Business and Commerce Technologies"
	2. Baccalaureate, Master's and Doctoral Level Degree Programs (Sections III, IV, and VII.). 5 - "Business and Management"
Health	1. Below Baccalaureate Degree Level Programs (Section II) "Science - or Engineering - related Organized Occupational Curriculums (a) Sections II. A.2.b, II.B.2.b. and II. C.2.b. - "Health Services and Paramedical Technologies"
	2. Baccalaureate, Master's and Doctoral Level Degree Programs (Sections III, IV, and VII). 12 - "Health Professions"
	3. First Professional and Intermediate Level Degree Programs. (Sections V and VI). V. 1 - "Dentistry" V. 2 - "Medicine" V. 5 - "Pharmacy" VI.1 - "Certificate in Dentistry"

Category	Definition
Law	1. Baccalaureate, Master's and Doctoral Level Degree Programs (Sections III, IV, and VII). 14 - "Law"
	2. First Professional and Intermediate Level Degree Programs (Section V). V.9. - "Law"
Other Professions	1. Baccalaureate, Master's and Doctoral Level Degree Programs (Sections III, IV, and VII). 2 - "Architecture and Environmental Design" 13 - "Home Economics" 16 - "Library Science 18 - "Military Science" 23 - "Theology"

III. Degrees and Other Formal Awards Conferred by Nebraska Institutions of Postsecondary Education, 1974-75 Through 1978-79

The following five (5) Tables show the number of degrees and other formal awards conferred by Nebraska institutions of postsecondary education during 1978-79, 1977-78, 1976-77, 1975-76, and 1974-75. Each Table is formatted the same with the degrees or awards described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at top of the Tables (columns).

The following abbreviations are used for purposes of designating the institutions.

University of Nebraska

UNL	University of Nebraska - Lincoln
UNO	University of Nebraska at Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges

CSC	Chadron State College
KSC	Kearney State College
PSC	Peru State College
WSC	Wayne State College

Nebraska Technical Community Colleges

Cent.	Central Technical Community College Area
Metro.	Metropolitan Technical Community College Area
M.P.	Mid Plains Technical Community College Area
N.E.	Northeast Technical Community College Area
S.E.	Southeast Technical Community College Area
West.	Western Technical Community College Area

Nebraska Independent Colleges and Universities

Belvu	Bellevue College
CSM	College of St. Mary
CNDIA	Concordia Teachers College
Creig. Univ.	Creighton University
Dana	Dana College
Doane	Doane College
G.C.B.	Grace College of the Bible
Hsting	Hastings College
Mid Lu	Midland Lutheran College
N.C.	Nebraska Christian College
N.W.U.	Nebraska Wesleyan University
P.V.B.	Platte Valley Bible College
Union	Union College
York	York College

Nebraska Private Vocational Schools

NCB	Nebraska College of Business

The Sections of the following tables are:

I. Total Number of Awards and Degrees Conferred
II. Degrees and Awards Based on Less Than 4 Years of Work Beyond High School
III. Bachelor Degrees Awarded
IV. Master's Degrees Awarded
V. First Professional Degrees Awarded in Selected Fields
VI. Degrees or Certificates Awarded that are Intermediate between the Master's Degree and the Doctor's Degree
VII. Doctor's Degrees Awarded

Table No. 5

Education and General Current Fund Financial Statistics of Nebraska Institutions of Postsecondary Education for Fiscal Years Ending 1975, 1976, 1977 and 1978, December 1979; Fiscal Years Ending 1975, 1976, 1977, 1978 and 1979, December, 1980.

This report is one of a series of Mini-reports prepared and distributed by the Nebraska Coordinating Commission for Postsecondary Education. This report was financed through the use of grant funds from the United States Office of Education (Section 1203, Higher Education Act of 1965, as amended), the general funds of the State of Nebraska as appropriated by the Legislature to the Nebraska Coordinating Commission for Postsecondary Education.

Mini-series reports do not represent positions or policies of the Nebraska Coordinating Commission for Postsecondary Education. The material provided in the report series is open for comment and discussion and provided as general information to the governor, legislature, and Nebraska postsecondary education community.

All comments on the material contained in the Mini-series reports should be directed to the Nebraska Coordinating Commission for Postsecondary Education, P.O. Box 95005, 301 Centennial Mall South, Lincoln, Nebraska 68509.

FULL-TIME INSTRUCTIONAL FACULTY DATA: NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION, ACADEMIC YEARS 1975-76 THROUGH 1979-80

November, 1980

Full-Time Instructional Faculty Data: Nebraska Institutions of Postsecondary Education, Academic Years 1975-76 Through 1979-80

A Five Year Summary

The number of full-time faculty reported by Nebraska institutions of postsecondary education increased by 255 or 7.47% between academic years 1975-76 and 1979-80 (from 3,415 to 3,670). Average nine-month salaries increased $4,051 or almost 28% (from $14,649 to $18,700). The percentage change in the number of full-time faculty and average nine-month salaries for the Nebraska postsecondary education sectors respectively are: University of Nebraska +3.25% and +30.96%; Nebraska State College, +7.96% and +27.89%; Nebraska Technical Community Colleges, +23.86% and +24.08%; Nebraska Independent Colleges and Universities, +5.4% and +25.41%.

The number of full-time faculty with the academic rank of professor increased by 135 or about 18.5% between 1975-76 and 1979-80, and average nine-month salaries for professors increased by $5,628, or 28% (from $20,050 to $25,678). Average nine-month salaries for men and women with the rank of professor at each of the postsecondary education sectors increased respectively: University, 28.5% and 30.9%; State Colleges, 28% and 32%, Independents, 27% and 34%. The technical community colleges reported no faculty at this rank.

Associate professors increased from 798 to 845, an increase of 47 between 1975-76 and 1979-80. Average nine-month salaries increased 27.4% for associate professors or $4,374 from the $15,941 average nine-month salary for associate professors in 1975-76. The University of Nebraska reported 51 more associate professors in 1979-80 over the number reported in 1975-76 and nine-month average salaries for men in this rank increased 27.8% compared to an increase of 26.6% increase for women. The four state colleges reported fewer associate professors in 1979-80 than in 1975-76, a reduction of 20 or 15.63%. Women in the rank of associate professor at the state colleges had higher average nine-month salaries than men in 1975-76 and again in 1979-80 and the percentage increase for women was more than for men. The independent colleges and universities reported 16 more associate professors in 1979-80, 8% more than in 1975-76, and the increase in the average nine-month salary for persons of this rank increased $3,752 or 25%, increasing from $14,918 in 1975-76 to $18,670 in 1979-80.

Assistant professors declined in number (7), but on the average received a nine-month salary in 1979-80 that was 26% or $3,408, more than the $13,085 reported in 1975-76. The university reported 10 fewer assistant professors while the state colleges reported an additional 10 at this rank, and the independents 7 fewer. Women holding the rank of assistant professor averaged nine-month salaries which were less than for men in 1975-76 and again in 1979-80, but the percentage increase in average nine-month salaries for women was greater than it was for men.

Between 1975-76 and 1979-80 the schools show a reduction in the number of full-time faculty that have tenure status. While the over-all number and percent of all full-time faculty tenured in 1979-80 is less, the state colleges and technical community colleges show increases. The 1975-76 and 1979-80 percentage of all faculty tenured for each of the sectors is: University of Nebraska, 63% to 57%; Nebraska State Colleges, 52% to 68%; Nebraska Technical Community Colleges, 0% to 8%; and the Nebraska Independent Colleges and Universities, 55% to 50%.

PREFACE

The information contained in this report was reported by the Nebraska institutions of postsecondary education on the Higher Education General Information Survey (HEGIS). The HEGIS full-time instructional faculty report is part of a series of reports institutions annually file with the National Center for Education Statistics of the U.S. Department of Health, Education, and Welfare. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions, the collection and return of completed reports for the National Center for Education Statistics (NCES).

The data were taken from the following HEGIS reports.

Academic Year 1979-80: "Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1979-80" (NCES Form 2300-3).

Academic Year 1978-79: "Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1978-79" (NCES Form 2300-3).

Academic Year 1977-78: "Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1977-78" (NCES Form 2300-3).

Academic Year 1976-77: "Employees in Institutions of Higher Education, 1976-77" (OE Form 2300-3).

Academic Year 1975-76: "Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1975-76" (OE Form 2300-3).

The raw data reported herein were sent to each Nebraska institution of postsecondary education for verification. The data shown in this report reflects changes made by the institutions as a result of this verification process.

It should be noted that while each collegiate postsecondary institution annually completes the Higher Education Information Survey, in 1978, the Nebraska College of Business, a Private Vocational School, participated in the Survey on an experimental basis. This experiment was conducted to determine the problems encountered, appropriateness, and general capability of private vocational schools which offer associate level degree programs to provide the same information. This single year reporting by the Nebraska College of Business does not imply that other private vocational schools were requested to provide the information or that this reporting in any way represents the totality of the 67 private vocational schools in Nebraska.

The Commission wishes to acknowledge with appreciation the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

III. Commission Reports 23

I. Introduction

The following tables provide in summary form data regarding full-time instructional faculty. It should be noted that these data do not include all the faculty an institution may have that are providing instructional services as, for example, the data do not include information on part-time faculty. It is, therefore, inappropriate to draw conclusions from these data related to the number of Full-Time Equivalent (FTE) faculty.

Special note must be paid to the average salaries reported herein. These are nine (9) month average salaries and this is the normal manner used for reporting average salaries of full-time instructional faculty. The formula used to derive these average salaries is the standard formula applied nation-wide. The formula is as follows: 9/11x 12-month faculty Salary Outlay + 9-month faculty Salary Outlay = Total and Converted 9-month Salary Outlay. This Total and Converted 9-month Salary Outlay is then divided by the total number of faculty (in total or by the respective academic ranks) to determine the average salary. The salary data reported herein do not include the fringe benefits the faculty receive from their respective institutions.

While all institutions reporting these data follow the same instructions, there are differences in reporting that do cause some differences in the data that need to be mentioned. An example of this was provided in a comment from Wayne State College in 1979 when the 1975-76 through 1978-79 data were verified by the Director for Institutional Research at Wayne State College.

> *The average salaries for Full-Time Instructional Staff for 1975-76 through 1978-79 are correct, according to the formula used to convert 12-month salaries to 9-month salaries, however, a distortion of the values results with the inclusion of salaries for Division Heads at the Full Professor and Associate Professor levles. From 1975-76 through 1978-79, the Division Heads were 0.5 FTE in instruction. Wayne State College interpreted the HEGIS guidelines such that Division Heads fiscal-year salaries were included in the reports. (Compared to the average salaries for full-instructional staff on 9-month contracts, the institutional average has been distorted by about $600, the Full Professor average by $200, and the Associate Professor by $800).*
>
> *In order to eliminate the distortion of average salaries due to the inclusion of a rate-of-pay for an administrative function, Wayne State College will not include the Division Head salaries in the Fall 1979 data.*

Comparability of the average faculty salaries, by rank, contained in this report is limited also by the use of a single and general formula used for the purpose of computing the average faculty salary. An alternative formula has been suggested by the Area President of the Central Technical Community College Area as being "a more accurate method for computing average salaries for specified ranks."

$$\frac{\dfrac{\text{Total Salary Outlay For Contract Faculty}}{\text{Institutional Contract Days}}}{\text{Number of Faculty}} = \text{Daily Faculty Rate} \times \text{Adjusted Number of Contract Days} = \text{Average Salary for Specified Rank}$$

As the above statements indicate, these data do need to be reviewed carefully and generally. While these data are being presented for informational purposes, it would be a mistake to interpret these data too literally without investigating some of the factors behind the apparent differences among and between institutions and institutional sectors that limit the comparability of the information contained in this report.

Some of the differences are due to the exclusions from the report the institutions completed. These exclusions provide for differences in these data from what may be anticipated or thought to be intuitively by those who review the report. The exclusions are:

1. *Instructional Faculty who are employed to teach less than two semesters, three quarters, two trimesters, or two 4-month trimesters, or two 4-month sessions.*

2. *Instructional faculty for pre-clinical and clinical medicine. (Instructional faculty in all other health fields, such as dentistry, veterinary medicine, nursing, dental hygiene, etc. are included).*

3. *Instructional faculty who are employed on a part-time basis.*

4. *Administrative officers with titles such as Dean of Instruction, Academic Dean, Dean of Faculty, Dean of Students, Librarian, Registrar, Coach, etc., even though they may devote part of their time to classroom instruction.*

5. *Undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching associate, teaching fellow, etc.*

Table No. 1

II. The Number and Average Salary of Full-Time Instructional Staff, By Rank, of Nebraska Institutions of Postsecondary Education for Academic Year 1975-76 Through 1979-80

The following five (5) Tables show the number and average 9-month salaries of full-time instructional staff, by rank, for the Academic Years 1979-80, 1978-79, 1977-78, 1976-77, and 1975-76. Each Table is formatted the same with the academic ranks described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at the top of the Tables (columns).

The following abbreviations are used on the Tables for Purposes of designating the institutions.

University of Nebraska

UNL	University of Nebraska - Lincoln
UNO	University of Nebraska at Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges

CSC	Chadron State College
KSC	Kearney State College
PSC	Peru State College
WSC	Wayne State College

Nebraska Technical Community Colleges

Cent.	Central Technical Community College Area
Metro.	Metropolitan Technical Community College Area
M.P.	Mid Plains Technical Community College Area
N.E.	Northeast Technical Community College Area
S.E.	Southeast Technical Community College Area
West.	Western Technical Community College Area

Nebraska Independent Colleges and Universities

Belvu	Bellevue College
CSM	College of St. Mary
CNDIA	Concordia Teachers College
Creig. Univ.	Creighton University
Dana	Dana College
Doane	Doane College
G.C.B.	Grace College of the Bible
Hsting	Hastings College
Mid Lu	Midland Lutheran College
N.C.	Nebraska Christian College
N.W.U.	Nebraska Wesleyan University
P.V.B.	Platte Valley Bible College
Union	Union College
York	York College

Nebraska Private Vocational Schools

NCB	Nebraska College of Business

December, 1980

Education and General Current Fund
Financial Statistics of Nebraska Institutions of Postsecondary Education

A Five Year Summary

Nebraska institutions for postsecondary education reported Education and General Current Fund revenues for fiscal year ending 1979 of 315,670 million dollars, a 57% increase over the 200,694 million dollars reported for fiscal year ending 1975. Percentage increases for the institutional sectors were, respectively: University of Nebraska 56%; Nebraska State Colleges, 50%; Nebraska Technical Community Colleges, 80%; and Nebraska Independent Colleges and Universities, 53%.

Of any one source of revenue, the largest dollar and percentage increase was in local appropriations to the Nebraska Technical Community Colleges. The change reflects the manner in which the technical community colleges were financed in 1979 compared to 1975.

Tuition and fee income increased by only 42%, thereby representing a greater proportion of the institutions educational and general current fund revenue in 1975 (25%), than in 1979 (23%). Tuition and fee revenue for the University of Nebraska increased by 27% and represented 15% of the reported revenue in 1979 compared to 18% in 1975. For the other sectors the percentage increase in tuition and fee income and proportionate share this income represented of all education and general revenue is as follows: Nebraska State Colleges, +33%, from 26% to 23%; Nebraska Technical Community Colleges, +107%, from 12% to 14%; Nebraska Independent Colleges and Universities, +51%, from 57% to 56%.

State Appropriations to the public postsecondary institutions increased from 89,801 million dollars to 141,344 million dollars, an increase of 57%. The University of Nebraska received 70% more in state appropriations in 1979 than in 1975 and this income from the state represented 56% of the University's education and general revenue in 1979, compared to being 52% of all income in 1975. The state colleges received 63% more in state appropriations in fiscal year ending 1979 compared to 1975. As with the University of Nebraska, the state colleges show that state appropriations accounted for a greater share of all revenue in 1979 (67%) than in 1975 (62%). The technical community colleges show a decline in both dollars received from the state and the proportion of all revenue made up by state appropriations (from 73% in 1975 to 40% in 1979). This change demonstrates the change in the method of financing the two-year public in 1979 as compared to 1975.

Expenditures from institutional current funds for educational and general purposes increased 104,660 million or 53%, for fiscal year ending 1979 compared to the 197,190 million dollars expended in 1975. Percentage increases for the institutional sectors were: University of Nebraska, +49%; Nebraska State Colleges and Universities, +53%.

The category of expenditure increasing the most (+86%) was Academic Support, including libraries. The second greatest percentage increase between 1975 and 1979 was for Institutional Support and the Maintenance of Physical Plant (+66%). Research expenditures increased by 59%. These three categories of expenditure show substantial increases in expenditures and the institutions also expended a greater proportion of their total expenditures for these areas in 1979 than in 1975.

Expenditures for instruction (+48), public service (+29%), student services (+64%), scholarships and fellowships (+24%), and education and general mandatory transfers (+37%), while reflecting increases, represent either a smaller or the same proportion of all expenditures in 1979 compared to 1975.

PREFACE

The information contained in this report was reported by the Nebraska institutions of postsecondary education on the Higher Education General Information Survey (HEGIS). The HEGIS financial statistics report is part of a series of reports institutions annually file with the National Center for Education Statistics of the U.S. Department of Health, Education, and Welfare. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions, the collection and return of completed reports for the National Center for Education Statistics (NCES).

The data for this report was taken from the following HEGIS reports:

1979:	"Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1979." (NCES Form 2300-4, Part A and Part B)
1978:	"Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1978." (NCES Form 2300-4, Part A and Part B)
1977:	"Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1977." (NCES Form 2300-4, Part A and Part B)
1976:	"Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1976." (OE Form 2300-4, Part A and Part B)
1975:	"Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1975." (OE Form 2300-4, Part A and Part B)

The summary tables of detailed educational and general revenues and expenditures reported herein were sent to each Nebraska institution of postsecondary education for verification. The data detailed in this report reflects changes made by the institutions as a result of this verification process.

It should be noted that while each collegiate postsecondary institution annually completes the Higher Education General Information Survey, in 1978, the Nebraska College of Business, a Private Vocational School, participated in the Survey on an experimental basis. This experiment was conducted to determine the problems encountered, appropriateness, and general capability of private vocational schools which offer associate degree level programs to provide the same information. This single year reporting by the Nebraska College of Business does not imply that other private vocational schools were requested to provide the information or that this reporting in any way represents the totality of the 67 private vocational schools in Nebraska.

This report reflects information from one of the six groups of funds generally managed by institutions of higher education. The fund group included herein is the Current Fund. Not included are revenues and expenditures related to the other five fund groups: Loan Funds, Endowment and Similar Funds, Annuity and Life Income Funds, Plant Funds, and Agency Funds. Each of the fund groups are defined below.

FUND GROUPS

1. Current Funds--This fund group includes all of those resources used, or available for use, in carrying out those operations directly related to the institution's educational objectives. It also includes the monies associated with the operation of the institution's auxiliary enterprises. This fund group generally is shwon in financial reports as two distinct subgroups--"Current Fund-Unrestricted" and "Current Fund-Restricted." Monies in the "Current Fund-Unrestricted" subgroups are available for any purpose in the Current Fund or any other fund group. Monies in the "Current Fund-Restricted" subgroup are restricted to a very specific aspect of the institution's current operations.

2. Loan Funds--This fund group consists of those resources that have been loaned or are available for loans to students, faculty, and staff. The unrestricted and restricted fund balances generally are shown separately in financial reports. Unrestricted funds in the loan fund group are funds that have been "designated" for loan purposes by the governing board. Restricted loan funds have been restricted for loan purposes by the funder.

3. Endowment and Similar Funds--This fund group includes funds whose principal is nonexpendable and that are intended to be invested to provide earnings for institutional use. Two methods of determining the earnings available for use are employed currently by higher education institutions. One method stipulates that only current yield (ordinary income such as interest and dividends) on the investment of endowment funds may be used. The second method (known as the "total return concept") allows for a portion of the capital gains of invested endowment funds to be used also. Both methods of determining expendable endowment earnings are generally accepted accounting practices--the institution's governing board generally decides which procedure is appropriate for its institution's particular needs.

4. Annuity and Life Income Funds--This fund group includes all funds carrying a stipulation that the institution make payments to one or more specified beneficiaries. If the institution is obligated to pay the beneficiary a stipulated amount, the fund is classified as an annuity fund. If the institution agrees to pay only the income earned by the assets of the fund or a stipulated percentage of its market value it is classified as a life income fund. Upon the death of the beneficiary, or at some agreed upon date, the principal of the annuity or life income fund becomes the property of the institution. It then is available for use at the discretion of the institution or in accordance with the terms of the agreement. Annuity funds and life income funds generally are maintained as two separate subgroups, but are combined for reporting purposes.

5. Plant Funds--Fund accounting reports the institution's physical plant assets in a separate fund group rather than reporting them as assets in several fund groups. The Plant Fund includes all of the institution's physical plant assets as well as the monies that are set aside to be used to fund new construction or acquisitions, debt service on plant, and renewal and replacement reserves.

6. Agency Funds--The institution often acts as the fiscal agent for funds it does not own. In such cases the institution usually is providing accounting services to the organization or person(s) to which the monies belong. All funds the institution holds as custodian or fiscal agent for student organizations, individual students, faculty members, and so forth are reported as agency funds in this fund group. However, when agency funds are not a material item, they may be reported as an element in the Current Fund. Whenever the purpose of a particular report or financial statement is to disclose the total resources available for use by the institution, agency funds are excluded or simply footnoted.

As indicated above, the information reported in this report is solely Current Fund information and of the Current Fund, only Education and General Current Fund Revenues and Expenditures are reported. Education and General are defined as follows:

Educational and General--This term is used to describe all operations related to instruction, research, public service, academic support, student services, operation and maintenance of plant, institutional support, and scholarships and fellowships. Excluded are expenditures for auxiliary enterprises and hospitals. In financial reports, the term Educational and General represents an aggregation of "functional" expenditure categories.

The above definitions were taken from the following source: Higher Education Finance Manual, Technical Report 69, National Center for Higher Education Management Systems at Western Interstate Commission on Higher Education, 1975, pages 27-33.

The Commission wishes to acknowledge with appreciation the cooperation and time the institutions devoted to reviewing and verifying the summary data contained in this report.

IV. Commission Reports		23

I. Introduction

The financial information contained in this report reflect institutional Education and General Revenue items and Education and General Expenditure items.

By definition, Education and General Revenue include current fund revenue from: Tuition and Fees; State Appropriations, Local Appropriations, Federal Appropriations, Grants and Contracts; Other Gifts, Grants and Contracts; Endowment; and, revenue from other sources. It excludes revenue the Sales and Services of Auxiliary Enterprises, Sales and Services of Hospitals, and income from Independent Operations. These data were taken from Part A of the HEGIS financial statistics report.

The total for Education and General Revenue, as taken from Part A of the reporting survey, was the summation of the following revenue sources.

a. Tuition and Fees (Part A, Line No. 1)
b. State Appropriations (Part A, Line No. 3)
c. Local Appropriations (Part A, Line No. 4)
d. Federal Appropriations, Grants and Contracts (Part A, summation of Lines 2, 5, and 6)
e. Other Gifts, Grants, and Contracts (Part A, summation of Lines 7, 8, 9, 10, 11, and 12)
f. Endowments (Part A, summation of Lines 13 and 14)
g. Other Revenue (Part A, summation of Lines 15 and 18).

It should be noted that both restricted and unrestricted forms of revenue are included in the Current Fund Education and General Revenue Total. Due to the inclusion of restricted institutional revenue, the revenue data reported in this report may be different from budgetary information reported by some institutions.

Institutions are given the following instructions in reporting the current fund items for Part A of the financial statistics report. While these are reporting instructions, they provide definition to the revenue items for those persons reviewing these data and this report.

Instructions for Part A. Current funds revenues include all unrestricted gifts and other unrestricted revenues earned during the fiscal year and restricted current funds to the extent that such funds were expended for current operating purposes.

LINE 1. Tuition and fees. Report all tuition and fees assessed against students for current operating purposes. Include tuition and fee remissions or exemptions even though there is no intention of collecting from the student. Include here those tuitions and fees which are remitted to the State as an offset to the State appropriations. (Charges for room, board, and other services rendered by auxiliary enterprises are not reported here. See line 16.)

LINES 2, 3, and 4. Governmental appropriations include all amounts received from or made available to the institution through acts of a legislative body, except grants or contracts. These funds are for meeting current operating expenses and NOT for specific projects or programs. Examples are Federal land-grant appropriations and Federal revenue sharing funds (line 2). Federal appropriations received through State channels is a subset of line 2 and should be included in the line 2 total for Federal appropriations.

LINES 5-10. Governmental grants and contracts. Report revenues from governmental agencies which are for specific research projects or other types of programs. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Amounts equal to direct costs incurred should be recorded as charges against current restricted funds and reported as restricted current funds revenues (lines 6, 8, and 10). Related indirect costs recovered should be reported as unrestricted revenues (lines 5, 7, and 9). Do not include BEOGs.

LINES 11 and 12. Private gifts, grants and contracts. Private gifts and grants include revenues from private donors for which no legal consideration is involved. Private contracts include those funds for which specific goods and services must be provided to the funder as stipulation for receipt of the funds. Include only those gifts, grants, and contracts that are directly related to the instruction, research, or public service. Moneys received as a result of gifts, grants, or contracts from a foreign government would be reported here. Include the estimated dollar amount of contributed services on line 11.

LINES 13 and 14. Endowment income. Report: (1) the unrestricted income of endowment and similar funds; (2) restricted income of endowment and similar funds to the extent expended for current operating purposes; and (3) income from funds held in trust by others under irrevocable trusts. Do not include capital gains or losses. If any such gains are spent for current operations, these should be treated as transfers, not revenues.

LINE 15. Sales and Services of educational activities. Report revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research, or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, and dairy products.

LINE 16. Sales and services of auxiliary enterprises. Report here all revenues generated by the auxiliary enterprise operations of the institution. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, college unions, college stores, barber shops, etc. (This item is not included in Education and General Revenue Total).

LINE 17. Sales and services of hospitals. Include the revenues (net of discounts and allowances) of a hospital operated by the institution. Do NOT include here gifts, grants, appropriations, research revenues, or endowment income. Include revenues of health clinics that are part of the hospital unless such clinics are part of the student health services program. (This item is not included in Education and General Revenue Totals).

LINE 18. Other sources. Include all items of revenue not covered elsewhere. Examples are interest income and gains (net of losses) from investments of unrestricted current funds. Include revenues resulting from the sales and services of internal service departments of persons or agencies external to the institution (e.g., the sale of computer time).

LINE 19. Independent operations. Include all revenues associated with operations independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may indirectly contribute to these programs. This category generally includes only those revenues associated with major Federally Funded Research and Development Centers. (This item is not included in Education and General Revenue Totals).

LINE 20. Total current funds revenues. Report here the sum of lines 1 through 19 inclusive.

Education and General Expenditures, by definition, include current fund expenditures for: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support and Operation and Maintenance of the Physical Plant; Scholarships and Fellowships; and, Educational and General Mandatory Transfers. Educational and General Expenditures exclude expenditures related to Auxiliary Enterprises, Hospitals, and Independent Operations. These later three items are included, however, in Total Current Funds Expenditures and Mandatory Transfers reported by the institutions. These expenditures data were taken from Part B of the HEGIS financial statistics report.

The total for Education and General Expenditures, as taken from Part B of the reporting survey, was the summation of the following expenditure items.

a. Instruction (Part B, Line No. 1)
b. Research (Part B, Line No. 2)
c. Public Service (Part B, Line No. 3)
d. Academic Support (Part B, Line No. 4)
e. Student Services (Part B, Line No. 6)
f. Institutional Support and Operation and Maintenance of Plant (Part B, summation of Lines 7 and 8)
g. Scholarships and Fellowships (Part B, summation of Lines 9 and 10)
h. Educational and General Mandatory Transfers (Part B, Line No. 11)

As with the revenue portion of this report, the expenditures include restricted and unrestricted current fund expenditures. The inclusion of both types of expenditure for the functional areas shown may cause these data to be slightly different from the budgetary data reported by some institutions.

The instructions provided the institutions for reporting current fund expenditures, and which provide definition for the expenditure categories are as follows.

Instructions for Part B. Report both unrestricted and restricted current funds expenditures in the following classifications:

LINE 1. Instruction. Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service which are not separately budgeted should be included in this classification. Include expenditures for both credit and noncredit activities. Exclude expenditures for academic administration where the primary function is administration (e.g., academic deans). This category includes the following subcategories: general academic instruction; occupational and vocational instruction; special session instruction, community education; preparatory and adult basic education; and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.

LINE 2. Research. This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. Do not report non-research sponsored programs (e.g., training programs).

LINE 3. Public service. Report all funds budgeted specifically for public service and expended for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community. Include expenditures for community services and cooperative extension services.

LINE 4. Academic support. This category includes expenditures for the support services that are an integral part of the institution's primary missions of instruction, research, or public service. Include expenditures for libraries (line 5), museums, galleries, audio/visual services, academic computing support, ancillary support, academic administration, and personnel development, and course and curriculum development. (Include line 5 expenditures in the line 4 total for academic support.) Line 4 is NOT the sum of lines 1, 2, and 3.

LINE 6. Student services. Report funds expended for admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Examples are career guidance, counseling, financial aid administration, student health services (except when operated as a self-supporting auxiliary enterprise).

LINE 7. Institutional support. Report expenditures for the day-to-day operational support of the institution, excluding expenditures for physical plant operations. Include general administrative services, executive direction and planning, legal and fiscal operations, and community relations.

LINE 8. Operation and maintenance of plant. Report all expenditures for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Do not include expenditures made from the institutional plant funds accounts.

LINE 9 and 10. Scholarships and fellowships. This category applies only to monies given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or not. Do not report Federal Basic Educational Opportunity Grants, ROTC scholarships, or other programs where the institution is not allowed to select the recipient of the grant. Aid to students in the form of tuition or fee remissions should be included. (Exclude those remissions which are granted because of faculty or staff status. Charge these to staff benefits.) /Do not report College Work Study program expenses here; report these expenses where the student served (e.g., dining halls, line 14; for a professor, line 1, etc.). If necessary, estimate./

LINE 11. Educational and general mandatory transfers. Mandatory transfers from current funds are those that must be made in order to fulfill a binding legal obligation of the institution. Report mandatory debt-service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest, and (2) required provisions for renewal and replacements to the extent not financed from other sources.

LINE 12. Total educational and general expenditures and mandatory transfers. Enter here the sum of lines 1 through 4 plus 6 through 11. (This is the Educational and General Expenditure Total used in this report.)

LINE 13. Mandatory transfers for auxiliary enterprises. Report the amount transferred from current funds for mandatory debt service provisions relating to auxiliary enterprises. Examples include maintenance reserves.

LINE 14. Auxiliary enterprises. This category includes those essentially self-supporting operations which exist to furnish a service to students, faculty, or staff, and which charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, college stores, and intercollegiate athletics. (Include the mandatory transfers amount on line 13 in the line 14 amount.)

LINE 15. Mandatory transfers for hospitals. Report the amount transferred from current funds for mandatory debt service provisions relating to hospitals.

LINE 16. Hospitals. Report all expenditures, except depreciation, associated with the operation of the hospital, including nurses expenses, other professional services, general services, administrative services, fiscal services, and charges for physical plant operations. (Include the mandatory transfers amount on line 15 in the line 16 amount.)

LINE 17. Mandatory transfers for independent operations. Report the amount transferred from current funds for mandatory debt service provisions relating to independent operations.

LINE 18. Independent operations. Include all funds expended for operations that are independent of or unrelated to the primary missions of the institution, although they may indirectly contribute to the enhancement of these programs. This category is generally limited to expenditures of a major Federally Funded Research and Development Center. Do not include the expenditures of operations owned and managed as investments of the institution's endowment funds. (Include the line 17 amount in the line 18 amount.)

LINE 19. Total current funds expenditures and mandatory transfers. Report the sum of lines 12, 14, 16, and 18.

II. SUMMARY TABLES

The two summary tables which follow compare the current fund education and general income (revenue) and expenditures for the fiscal years ending 1975 and 1979. It should be noted that the amounts have been rounded to the nearest one thousand dollars. Table No. 1 shows that for the fiscal year ending 1979, the total education and general revenue of all institutions (Nebraska State Totals) was $315.6 million which compares to $200.6 million for fiscal year ending 1975, reflecting that the total educational and general revenue of the reporting institution was 57 percent more in 1979 than it was in 1975. The amounts from each revenue source are shown as well as the percent of the total education and general revenue contributed by each revenue source. For example, in 1979, Tuition and Fee income of $72 million represented 23 percent of the total educational and general income and this compares with the $51 million in 1975, which was 25 percent of the total educational and general revenue derived from tuition and fees.

Table No. 2 shows that for fiscal year ending 1979, the education and general expenditures for all institutions equaled $301.8 million (Nebraska State Totals) of which 45 percent ($135 million) was reported for the Expenditure Category of Instruction. In 1975, the institutionsreported an amount approximately $197.1 million of which some $91 million, or 46 percent of the total was reported for Instruction.

The third column of each sector, and for the state totals, should be read across, rather than vertically. The 4 year change shows both the change in dollar amounts and percent change from the Revenue Sources (Table No. 1) and Expenditure Categories (Table No. 2). For example, Table No. 1 shows that the total revenue derived from Tuition and Fees in 1979 was $21.2 million more than it was in 1975, an increase of 42 percent. On Table No. 2, the expenditure for Instruction in 1979 was $44 million more than in 1975 and this represents an increase of 48 percent.

Those who review these data are cautioned from drawing too specific interpretations from these summary tables as they do have limitations.

The data reported are limited by institutional and state policies which may have changed during the time in which these are reported that would affect the information shown. While the reporting instructions are the same for each institution, they are sometimes interpreted differently by some reporting officers which would affect the data. In addition, personnel in the offices reporting these data may have changed and this may lead to one individual reporting the data differently than the person before.

For fiscal year ending 1979, however, the data were to be reported in a manner consistent with the following accounting and auditing guides, all of which have uniform accounting and auditing instructions and are compatible with each other.

- Higher Education Finance Manual
- National Association of College and University Business Officers Guide
- Industry Audit Guide for Audits of Colleges and Universities prepared by the American Institute of Certified Public Accountants
- Higher Education General Information Survey (HEGIS) "Financial Statistics of Institutions of Higher Education."

While the data contained in this report are specific to the Nebraska institutions of postsecondary education, it should be noted that the same information (that is Current Fund Educational and General Revenues and Expenditures), for all states is available in a similar format from the following sources: SHEEO, NCHEMS, ECS State Postsecondary Education Profiles Handbook, available from the Education Commission of the States in Denver, Colorado, and Higher Education Financing in the Fifty States, authored by Marilyn McCoy and D. Kent Halstead, published in September, 1979, by the National Center for Higher Education Management Systems, the U.S. Department of Health, Education and Welfare, and the National Institute of Education.

III. Percent of Total Educational and General Revenues And Expenditures of Nebraska Postsecondary Education Institutions and Institutional Sectors for Fiscal Years Ending 1979, 1978, 1977, 1976, and 1975

The following five (5) tables show the percent of the total educational and general revenue derived from various sources of revenue for each fiscal year. In addition, the percent of the total education and general expenditures by expenditure categories is shown for each fiscal year. Each Table is one fiscal year and each is formatted the same with the revenue sources and expenditure categories described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at the top of the tables (columns).

The following abbreviations are used for purposes of designating the institutions.

University of Nebraska

UNL	University of Nebraska - Lincoln
UNO	University of Nebraska at Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges
